

Important Information

1 - Door Storage

Conditions for door storage: must be horizontal & flat, off the ground, in a dry area, away from weather & moisture (open windows, fresh plastering, etc.)

7 - Sunlight

Doors exposed to direct sunlight must be finished in light reflective colours. Failure to do so may void guarantee.

2 - Responsibility

Onus rests with installer to check the door is correct prior to commencing work on the door. Modified doors cannot be returned.

8 - Replacement

EzyDor cannot be held responsible for additional charges arising from hanging or finishing of replacement of doors.

3 - Weather

To reduce effects of weather exposure, always install entrance doors in openings protected from the weather. Doors fully exposed to the weather are not covered by guarantee.

9 - Lock Block

For all doors except honeycomb doors, lock blocks are full height both sides. For honeycomb doors lock blocks located in the centre on both sides and are 600mm long (doors ≤2100 high) or 800mm long (doors >2100).

4 - Trimming

Maximum recommended trim is 3mm from the edge on all four sides.

10 - Defects

Natural variation in timber colour, texture or grain is not considered a defect.

5 - Hinges

Solid core doors and entrance doors require a minimum of 3 x 100mm hinges. Check with EzyDor for exact requirements.

11 - Lifting

Lift with care. Use two (2) people to carry solid core doors.

6 - Painting

Guarantee is only applicable to doors that have been completely and properly sealed and painted with minimum two (2) coats prior to hanging, including all edges.

12 - Contact Sales

If in doubt, please contact EzyDor at sales@ezconcept.com.au or chat with us online at www.ezconcept.com.au
