Hardware Brochure

RocYork

Door Hardware

RocYork is the line of door hardware designed to complement modern door openings. Made from high-quality stainless steel, each hinge and handle complement architectural design.

RocYork's design prioritises both form and function, with seamless integration into door and jamb. Durable hardware designed to elevate your modern architectural vision, lasting through extended heavy traffic conditions.

The RocYork Hardware Line

Concealed Hinge

The elegance of minimalism fully realised. Concealed Hinges are designed to complete extravagent interior spaces.

NoHa Invisible Handle

Create seamless openings down to the finer details. Invisible handles which complement the crisp lines of a flush finish.

Mortice Hinge

Built for durability and available in two sizes to accommodate heavier loads.

Lift Off Hinge

The leafs lift apart for quick door removal in an emergency. Suitable for openings that require a service gap.

Herline Hinge

Surface mounted & self tapping screws for ease of installation. Complete with a loose pin for ease of door removal.

Hinges

Concealed Hinges

Fluid architectural detailing sometimes means removing the details.

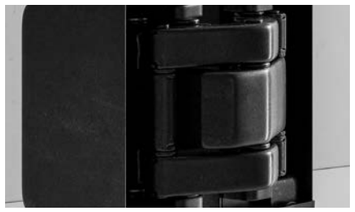
Concealed Hinges utilise an inset barrel and pin for a finish that is invisible in a closed door. The result is a fine line perimeter uncluttered by hardware and fitting of a lush contemporary space. Aesthetic form meets endurance as the hinge is designed to withstand high usage and slamming over extended periods.

Invisible Barrel & Pin

The barrel sits inside the door whilst the hinge collapses inside the hinge body upon closure.

Low Profile Hinge Covers

Sleek covering to hide the inner workings of the hinge for a subtle visual finish.



Maintenance Free

Constructed with a bearing mechanism that required no maintenance.

Three Axis Adjustability

Find the perfect fit with ease as the hinge features three points of adjustability easily maneuvered with an allen key. This allows for adjustability of the height of the door, the width of the clearance between the door and jamb, and the depth of the door position.

The Range

RocYork RY-60

Max Panel Width	920mm
Max Panel Height	3000mm
Door Thicknesses	35mm (minimum)

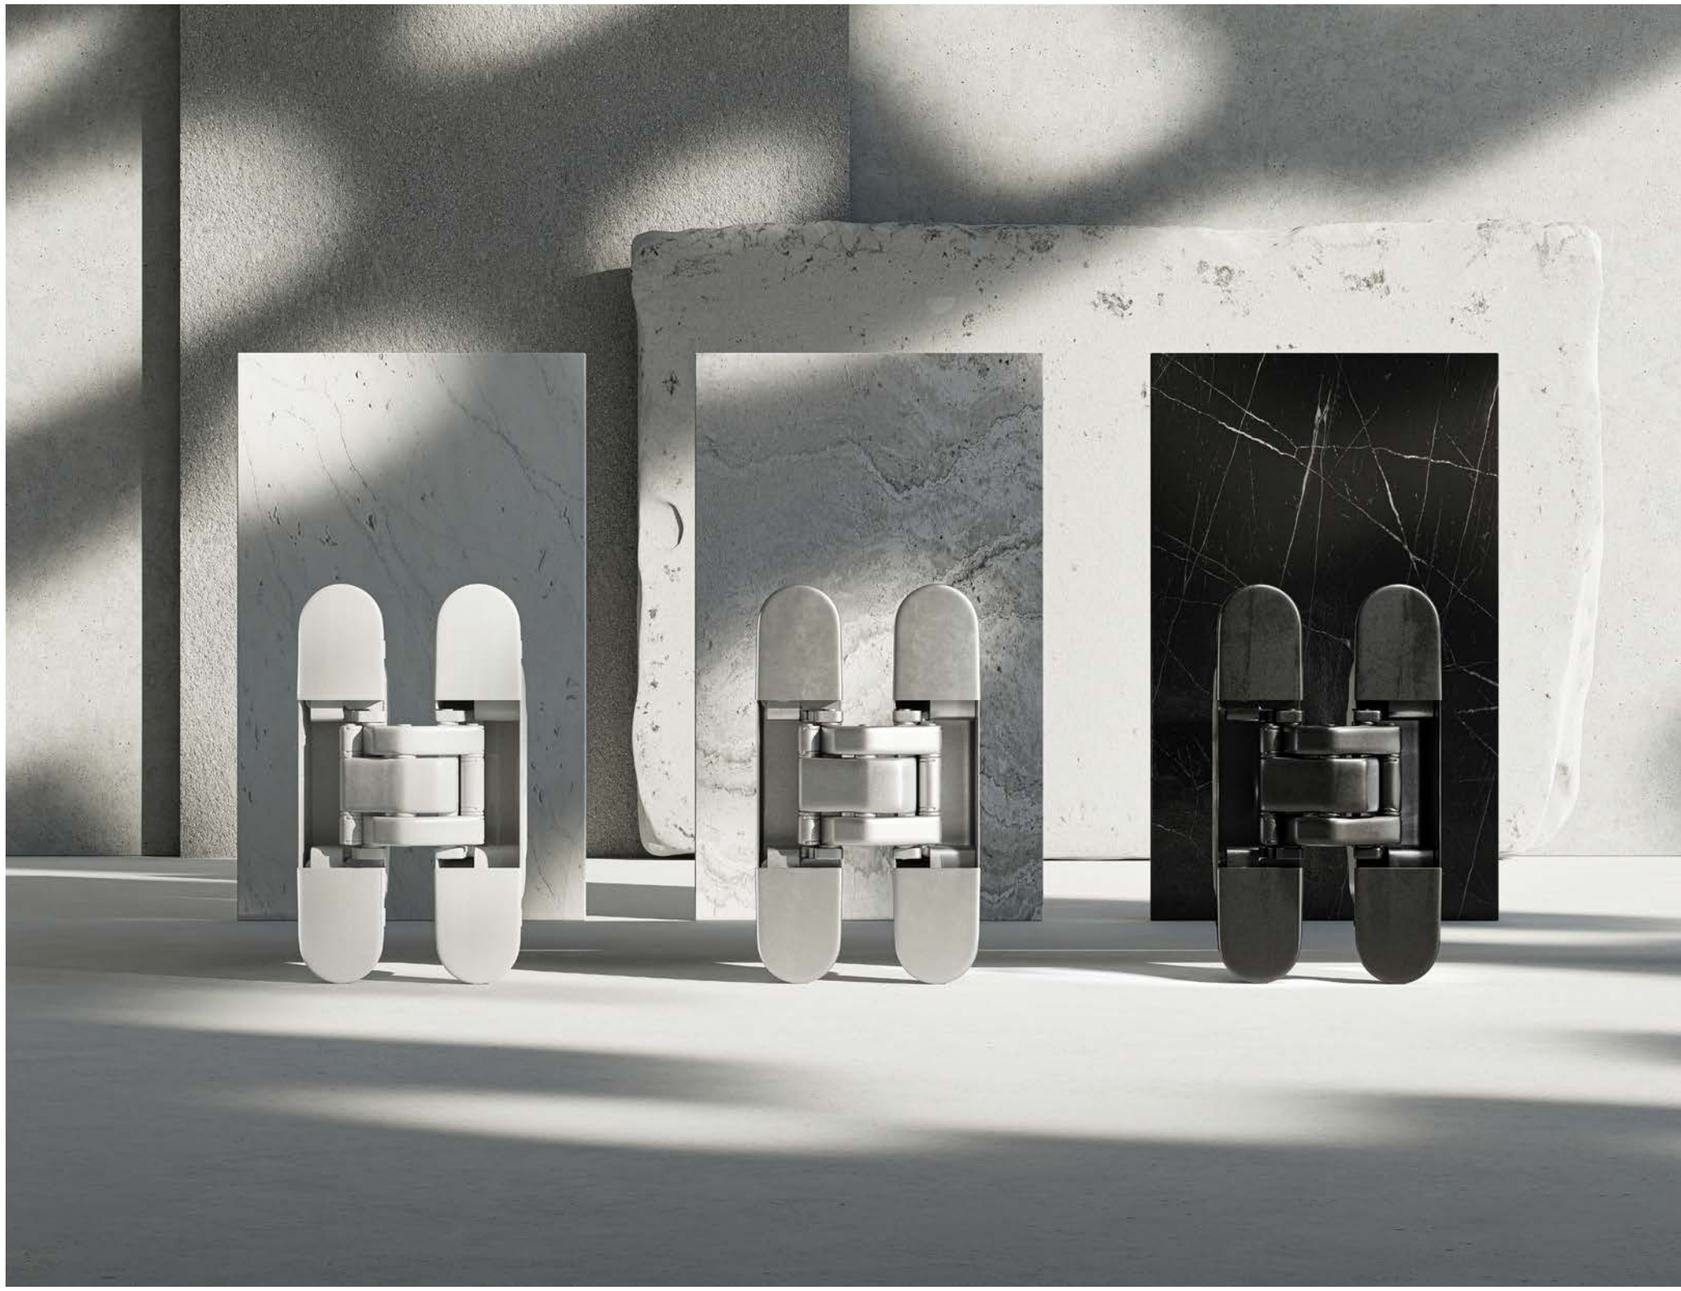
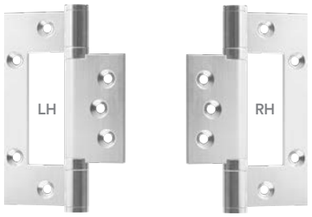
The RocYork Concealed Hinge entirely hidden behind a closed door. Leaving no visible barrel or pin; paired with the EzyJamb Single Rebate door frame.



The RocYork Concealed Hinge in Satin Chrome, Black, White

Surface Mounted Hinges



RocYork Herline Hinge

EJHINSS-LH/RH

Specially designed and manufactured to partner with the EzyJamb door jamb systems, the loose pin RocYork Herline Hinges are surface mounted with self-tapping screws, making them easy to install.

Finish	Stainless Steel
	Black
	White

RocYork Lift-off Hinge

EJHINSS-LIFT

For greater flexibility, the RocYork Lift-off hinges are ideal for doors that require a service gap, such as apartment bathrooms, as they can quickly be lifted and removed without the need for unscrewing the hinge; saving time in an emergency.

Finish	Stainless Steel
	Black, White

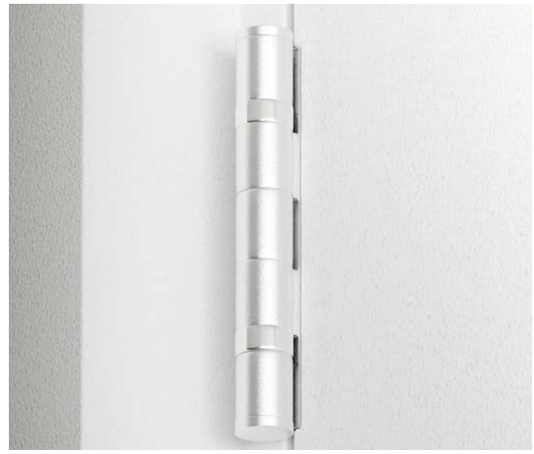
Heavy Duty Hinges

RocYork Mortice Hinge

RY4312SS

Specially designed and manufactured to partner with the EzyJamb door jamb systems, the ball bearing, fixed pin, RocYork mortice hinge is designed to keep the knuckle closer to the wall than traditional mortice hinges. Two sizes offered to meet a range of weighting requirements; the 114mm model is designed to be paired with heavier duty doors.

Finish	Stainless Steel
Sizing	100mm & 114mm



Hardware Accessories

NoHa Invisible Handles

Clean line design, hidden in plain sight.

The NoHa Invisible Handle integrates the door handle and magnetic lock into a singular unit. The handle is revealed only by the fine line of its cover which can be specified to the same finish as the surrounding door and walls.

The RocYork NoHa collection includes:

- NoHa Swing for swing doors
- NoHa Slide for sliding doors
- NoHa Cabinet for drawers, cupboards and other accessories

ⓘ Minimum 43mm door thickness required for Invisible Handle installation.

Profiles

NoHa Slide

For application in sliding doors.

NoHa Swing

For application in swing doors.

NoHa Cabinet

For application in furtinure such as drawers and cupboards.

Features

Interchangable Cover Plate

The cover plate is interchangeable so that it can be made to match the finish of the door panel. Also available in MDF or brushed stainless steel to suit your interior finishing texture.

Security Options

A selection of door knobs and privacy locks can be applied for entries such as bathrooms. The lock is only visible from the inside to maintain the clean finish on the other side.

Maintenance Free

Resistant to wear-and-tear and oxidation. High grade composition ensures maintenance is not required over time.

Product Details

Variant	Description	Finishing
Swing	NoHa Lock and Strike - Passage	Satin Chrome
Swing	NoHa Lock and Strike - Passage	Black
Swing	NoHa Lock and Strike - Privacy	Satin Chrome
Swing	NoHa Lock and Strike - Privacy	Black
Sliding	NoHa Sliding Handle - One Side (Available for Single door or Double door)	
Sliding	NoHa Sliding Handle - Two Side (Available for Single door or Double door)	
Cabinet	NoHa Cabinet Handle - One Side	

ⓘ Finish can also be created by cutting out a section of the door in use; fixing this to the NoHa unit to serve as the cover plate for a perfect continuation of colour and texture between surfaces.

The RocYork NoHa Handle defines the understated finish of a bathroom cavity sliding door entrance.

A living room characterised by contemporary design.
The imperial blue of the space remains unbroken by the RocYork NoHa door handle.
